10 July 2012

SREI, Pune: Assistant Professor

July 2012

July 2017

Other Projects

Digital Forensics on Cloud: IaaS, MTech Project

July 2018

- Tools Used: Wireshark 2.2, Autopsy 4.8, Kibana 7.0, Splunk 6.0, Openstack, MySQL 5.5, PuTTY 0.75, Snort
- Performing structured investigation by collecting, identifying & validating digital information for purpose of reconstructing past events.
- Digital forensic acquisition & analysis system in an IaaS model.

July 2019

VOICE CONTROL WINDOWS, B.E.

Jan 2010

Technology: C#.Net, XML

July 2010

The "VOICE CONTROL WINDOWS" is useful to help the physically impaired. Operate any of the windows operating systems entirely by giving the instructions in audio format using microphones or any another audio input device & all the operation perform using voice instead of mouse or keyboard. Some basic APIs defined in .NET Framework 3.5 will be used to build the product.

"GIS OF BARAMATI, Diploma in Computer Engineering

July 2012

Technology: VB 6.0, MS-Access

Jul 2017

This system has the end users as anyone who wants to find particular place in a city. This system shows the information about that place and all as well as the related places so that the unknown person can show wonder in city easily. e.g. search for Blood Bank, it will show address, lightening on graph and way by color as well as the contact information about that place(if it has).

Certificate

- .Net 3.5 ASP .Net Application Development
- .Net 3.5 Application Development Foundation

Soft Skills

- Effective Communication, Active listening, Time Management, Quick Learner and Smart Worker
- Strong Team Player, Cooperative Attitude and Problem Solving

Thanks and Regards
